SKU:

Categories: Ostomy Care

Product Description

Special needs infants require specific, yet gentle, care which includes the performance of vital medical procedures. This newborn-size infant allows health care facilities and medical staff to teach special procedures and develop a nursing care plan for special needs infants. The simulator was developed for a wide range of educational training, including beginning nursing students. Medical devices that can be used include:

- tracheostomy tube and suction catheter
- gastrostomy tube
- nasogastric tube
- urethral catheter

Procedures that can be practiced include: • Tracheostomy care (lavage and suctioning) • Gastrostomy cares (lavage and gavage) • Nasogastric care (placement, lavage, gavage, and suctioning) • Urethra catheterization (insertion, placement, and care) • Colostomy stoma (basic care purposes only)
