Product Description

CTGi – Fetal Heart Rate Monitor Simulator

CTGi is an economical, highly advanced and realistic fetal heart rate monitor simulation package. The lightness and simplicity, using just two tablets, makes the CTGi ideal for in-situ training.

Features of the CTGi Fetal Heart Rate Simulator by iSimulate:

- **Realistic function & detail** – CTGi allows you to create realistic traces with exceptional detail. Manage maternal vitals, easily add decelerations, accelerations as well as contractions. Pause, rewind and fast forward with a swipe
- **Versatile** – CTGi can be used in many different teaching modalities, its interface is incredibly realistic with an interactive control iPad® to create traces easily
- **Capability** – Turn a low fidelity situation into high fidelity simulation. Name, save and replay scenarios and traces for teaching
