Product Description

The fetal monitoring and labor progress model set provides students with a realistic simulation of vaginal examinations, labor progress and insertion of the intrauterine pressure catheter. This fetal and labor model set is an excellent tool for teaching nursing, medical, or midwifery students. This lifelike 3D model includes:

- Fetal head
- Lower uterine segment
- Cervix
- 4 Interchangeable cervical dilation models

The fetal monitoring and labor progress model set is a great addition to any lesson about the human birth process.
