Product Description

Episiotomy suture trainer for realistic obstetric skill training

The Episiotomy Suture Training Module P96 will enhance your Birthing Simulator P90 PRO or BASIC with realistic postpartum episiotomy suturing and repair skills trainer inserts. The soft skin will support real sutures and will enable the trainee to gain experience in instrument handling as well as suture techniques and tying knots.

With this module, taking care of the following birth injuries can be easily practised and demonstrated:

- Mediolateral left
- Medial or midline
- And much more thanks to the uncut insert

Features:

- Compatible with Birthing Simulator P90 PRO and Basic
- Easy installation of the different inserts and of the module in the Birthing Simulator P90
- Two inserts feature medial episiotomy and mediolateral episiotomy with tears in the labia minora
- One insert is uncut and enables the trainee to choose the episiotomy location he wants to train
- Realistic soft skin
- Supports the use of real suture instruments
- Supports real sutures
- Durable reusable skin
- Made of latex-free material

Delivery content:

- 1 module base
- 2 episiotomy suture inserts, pre-cut
- 1 episiotomy suture insert, uncut
- Safety plate with 4 screws (for the optional insert in birth simulator P90)
