Willi and Cathi Catheterization Trainers

Item No. SB50115

Weight

Make: Nasco Healthcare, USA

[Read More](#)

SKU:

Categories:Catheterization

Product Description

Trainers fit into Interchangeable Catheterization & Enema Simulator, (LG02099U">LG02099U, In-Service Home Care Training Simulator, (LG02098U">LG02098U, and most Laerdal® manikins or into the remedy stand (coming soon). Material feels realistic and delicate like actual tissue. Use the Cathi female catheterization trainer to practice locating the urethral meatus and for urinary catheter placement. The labia minora realistically closes over the vaginal and urethral openings. The tissue is supple and pliable for easy spreading with thumb and index fingers. The Willi male catheterization trainer has a removable foreskin and can simulate an enlarged prostate. Successful catheterization on either trainer will be confirmed with urine flashback. Manikin not included.
