Categories:AED Trainers

Product Description

This unit allows students to practice realistic device operation using AHA recommended training scenarios. An identical graphical operator interface and complete audio and visual prompts mimic the AED Plus in its look and operation. Screen messages, audible tones, and voice prompts guide the user through all aspects of the rescue from arrival on scene and calling for help, to administering CPR and shock delivery. The convenient handheld remote control for instructor use is preprogrammed with the eight American Heart Association Heartsaver AED training scenarios and offers a manual scenario function, plus "Attach Pads," "Low Battery," and "Call for service" simulations. The Training Unit is powered by six "C" cell batteries or an AC adapter. Supplied with training electrode kit, training remote control, AC adapter, hand-held cord, operator manual, administration guide, and one-year limited warranty. Size 17" x 12" x 16".
