Product Description

DANi is an advanced training solution designed to support training on the fundamentals of nursing and EMS procedures for issues relating to drug abuse, sexual assault, mental health, or self-harm.

Learners can also practice general patient care, patient positioning, bandaging and wound dressing, oxygen administration. DANI accurately reproduces scenarios and challenging dynamics for learners to administer critical care for this important patient demographic. A realistic, hands-on learning experience ideally suited for classroom, in-situ, or hospital instruction. Also available in medium - SKU:
