## HAL® S315.600 CPR+D and ECG Skills Trainer with OMNI®2

Item No. S315.600.250.PK1

Weight

Make: Gaumard, USA

[Read More](#)

**SKU:**

**Categories:**ALS Adult

### Product Description

The HAL® S315.600.250 CPR+D Skills Trainer Torso with OMNI® 2 is the newest addition to the S315 family of CPR skills trainers. The durable all-in-one design eliminates the need for external pumps, compressors, or attachments, making this CPR training torso portable enough for traveling CPR outreach instructors and strong enough to train professionals in-house.

### EASY-TO-USE, DURABLE, & PORTABLE HANDS-ON BLS TRAINING

Whether for outreach or professional development, the new HAL S315.600.250 is a great addition to every basic life support training curriculum. Practice assessing breathing, performing quality CPR,

delivering a shock, and recognizing return of spontaneous circulation. HAL is the portable, all-in-one training solution for every training need.

### Programmable EKG

Illustrate shockable and non-shockable EKG with 20+ preprogrammed rhythms

### Intubatable Airway

Perform nasal and oral intubation with standard, real adjuncts

### Realistic Chest Rise

Visualize realistic chest rise with BVM ventilation

### Spontaneous Chest Rise and Pulse

Identify proper chest rise and pulses without add-on items

### Monitor with Real Equipment

Use real AED/defibrillator to monitor programmable EKG

## Real Energy Defibrillation

Defibrillate directly on conductive skin patches or pad-free posts with up to 360 joules of real energy from real equipment

## Feedback and Control

See immediate feedback on actions and easily select the appropriate responses

## Post-cardiac Arrest

Train to check for the return of spontaneous circulation (ROSC)

## Debriefing Tools

OMNI® 2 automatically detects and records events for easy debriefing

## Resuscitation Training with OMNI® 2

The new OMNI® 2 features basic life support specific simulation tools designed to help boost skill acquisition, enhance the simulated experience, and support assessment and debriefing. It's the one handy tool that can do it all.

## Real-time eCPR™ feedback

The OMNI® 2 features CPR coaching and evaluating modes. In the CPR coach mode audible tones guide compression rate and ratio for learners. In the evaluating mode real-time monitoring of CPR metrics provides feedback of time to CPR, compression depth and rate, ventilation rate and volume, “no-flow” time, and number of cycles.

## eCPR™ Performance Reports

Set parameter goals, evaluate individual and/or team efforts, and save and share reports to discuss and improve quality of CPR.

## Data-rich Debriefing Tools

Automatically records events during simulation. Select from lists of common actions specific to a scenario type or algorithm. Save and share session logs for archiving and debriefing.

- HAL® S315.600.250 Skills Trainer
- OMNI® 2 Wireless Control Interface

- Carrying Case
- Operating Guide
- A/C Adapter
- HAL S315.600 Skills Trainer with 4-lead ECG sites, OMNI2 Controller, carrying case, user manual, and power supply
