## Product Description

**Part # PP-AFM-100M-MS** The PRESTAN Professional Female Manikin is designed to transform CPR/AED training, improve CPR survival rates in women, encourage dialogue & breakdown barriers, and eliminate gender bias in CPR administration. Using the same trusted design as the Professional Adult Manikin, the Female Manikin is realistic to the eye and the touch, unlike any other CPR Training Manikin on the market. Lightweight with fast and simple setup. Equipped with a revolutionary CPR Rate

Monitor that allows for instant rate and depth feedback to both the instructor and student. Fully compliant with current industry guidelines, including the most recent AHA Integrated Feedback Directive. Available in medium or dark skin tones, with CPR Feedback only and in Single, 4-Pack or 4-Pack Diversity Kit configurations. Replacement skins are also available and can be used with the PRESTAN Professional Adult, Adult Series 2000, PRO+ Adult, and Adult Jaw Thrust Manikins. All PRESTAN CPR Training Manikins are Made in the USA. **Prestan Female Training Manikin (installed with Rate Monitor and Depth Clicker for CPR Feedback and AA Batteries not included) Includes:**

- 10 Adult Face-Shield/Lung-Bags
- Quick Start Card
- Carry Bag
- 

## Warranty Information & Guarantee

PRESTAN offers a THREE YEAR LIMITED WARRANTY against any defects in workmanship or materials under normal use with respect to its PRESTAN TRAINING MANIKINS.

### PRESTAN Professional Manikin CPR Rate Monitor

All PRESTAN Professional Manikins are available with a revolutionary CPR Rate Monitor that allows for instant feedback to both instructors and students. The visual feedback from the CPR Rate Monitor gives students a real life feel of delivering 100-120 compressions per minute. Lights continually signal rate progression, confirming compressions are within the 100- 120 cpm range recommended by the Industry Guidelines. The yellow light will blink if the 120 cpm upper limit is exceeded, warning students to slow down. Instructors can monitor several students quickly and easily. In addition to the visual CPR Rate Monitor, students will also hear a clicker sound as the chest is pushed to the appropriate depth of 2.0 -2.4 inches allowing them to experience the true force needed to deliver real life chest compressions. The CPR Rate Monitor may be purchased separately to upgrade any non-monitored PRESTAN Professional Manikin.
