SKU:

Categories:Gynaecology

Product Description

A life-size model showing the female perineum area, including the anus and external genitals. The pelvic diaphragm, urogenital perineum with the opening of the vagina, and anal perineum are well represented. Distribution of blood vessels and nerve endings are included. Accompanying an interactive 3D anatomical model with augmented reality is a great tool to encourage learning and support. This platform allows students to engage in comparative analysis of anatomical models as they compare and contrast the structure of individual organs. This initiative also provides a platform for continuing education, providing opportunities for all students to increase their knowledge of anatomy, physiology and pathophysiology. One-Year Warranty Ship Weight (LBs): 3.7 lbs. Dimensions. (Inches): 16.14 x 10.63 x 8.66
