**SKU:**

**Categories:**Muscle Models

## Product Description

Colored muscle figure 1/4th life size, is a useful tool for studying human superficial muscles. The muscular structures are colored, numbered and referenced on an accompanying information card. Accompanying an interactive 3D anatomical model with augmented reality is a great tool to encourage learning and support. This platform allows students to engage in comparative analysis of anatomical models as they compare and contrast the structure of individual organs. This initiative also provides a platform for continuing education, providing opportunities for all students to increase their knowledge of anatomy, physiology and pathophysiology. One-Year Warranty Ship Weight (LBs): 3.3 lbs. Dimensions. (Inches): 19.69 x 9.84 x 7.87
