SKU:

Categories:Brain Models

Product Description

A life-size brain model divided medially into two parts along a sagittal plane. It shows the blood vessels of the brain cerebellum left and right brainstem. Important anatomical structures are numbered for easy understanding. Accompanying an interactive 3D anatomical model with augmented reality is a great tool to encourage learning and support. This platform allows students to engage in comparative analysis of anatomical models as they compare and contrast the structure of individual organs. This initiative also provides a platform for continuing education providing opportunities for all students to increase their knowledge of anatomy physiology and pathophysiology. One-Year Warranty Ship Weight (LBs): 2.2 lbs. Dimensions. (Inches): 9.84 x 8.66 x 13.78
