Neuro Brain Model, 1.5X Enlarged, 4 Parts

Item No. MG21720
Weight 5.5 lbs
Make: Nasco Healthcare, USA

[Read More](#)

SKU:

Categories:Brain Models

Product Description

This carefully painted model of an enlarged brain can be divided into a right and left half brain. The left half can be divided into 4 parts. These are parietal lobes temporal with occipital lobes as well as half of the brain stem and half of the cerebellum. The right half shows the brain regions in color in the left half the functional areas are shown in color. Accompanying an interactive 3D anatomical model with augmented reality is a great tool to encourage learning and support. This platform allows students to engage in comparative analysis of anatomical models as they compare and contrast the structure of individual organs. This initiative also provides a platform for continuing education providing opportunities for all students to increase their knowledge of anatomy physiology and pathophysiology. One-Year Warranty Ship Weight (LBs): 5.5 lbs. Dimensions. (Inches): 9.84 x 8.66 x 15.75
