SKU:

Categories: Eye Models

Product Description

Oversized eye model with cutout to show internal anatomy. Includes five interchangeable lenses that show various types of cataract conditions, including: subcapsular, capsular, mature, cortical and nuclear. Lens and cornea are removable. Accompanied by an interactive 3D anatomical model with augmented reality, it is a great tool to encourage learning and support. This platform allows students to engage in comparative analysis of anatomical models as they compare and contrast the structure of individual organs. This initiative also provides a platform for continuing education, providing opportunities for all students to increase their knowledge of anatomy, physiology and pathophysiology. One-Year Warranty Ship Weight (LBs): 2.2 lbs. Dimensions. (Inches): 4.72 x 4.72 x 7.87
