SKU:

Categories: Digestive System Models

Product Description

Life-size model with the following features: Stomach with 2 parts along with Pancreas, Spleen and Duodenum (shown in open section), Gallbladder with bile ducts, Abdominal aorta, Vena cava, Mesenteric and Iliac vessels. Two sections of the liver and gallbladder are interchangeable. Accompanying an interactive 3D anatomical model with augmented reality is a great tool to encourage learning and support. This platform allows students to engage in comparative analysis of anatomical models as they compare and contrast the structure of individual organs. This initiative also provides a platform for continuing education, providing opportunities for all students to increase their knowledge of anatomy, physiology and pathophysiology. One-Year Warranty Ship Weight (LBs): 3.3 lbs. Dimensions. (Inches): 8.27 x 6.3 x 11.81
