Categories: Joint Models

Product Description

One-piece life-size model, a realistic representation of the human elbow with ligaments. Made from long-lasting synthetic material and assembled by hand, it is long-lasting. Accompanying an interactive 3D anatomical model with augmented reality is a great tool to encourage learning and support. This platform allows students to engage in comparative analysis of anatomical models as they compare and contrast the structure of individual organs. This initiative also provides a platform for continuing

education, providing opportunities for all students to increase their knowledge of anatomy, physiology and pathophysiology. One-Year Warranty Ship Weight (LBs): 2.2 lbs. Dimensions. (Inches): 5.91 x 4.72 x 9.84
